Certified Nursing Assistant (CNA) Program

As an approved Certified Nursing Assistant Training site in the District of Columbia, we provide students with the knowledge, training and skills to enable them to assist with basic patient care or support, where they are under the direction of onsite licensed nursing staff and they can be employed in a variety of healthcare settings as Nursing Assistants. Upon successful completion of theory/didactic and skills they can sit for the NNAAP examination (National Nursing Assistant Assessment Program examination).

Students must meet the following requirements: complete an application; HS Diploma, pass 3 out of 4 GED subject tests, NEDP Assessment Phase 6 out of 8 modules successfully completed, digital literacy score (Northstar) of 85+; AoH teacher rubric score: must attain 3 “exceeds expectations” and 1 “meets expectations” from 2 teachers and 1 student support specialist. For new learners they must provide 2 professional references. Students must also complete an extensive psychosocial assessment identifying only barriers that can be addressed at the present time; pass a criminal background check and drug and health screen clearance; and complete an interview with the AoH workforce team.
